Josue came and cleared the drain of my shower/tub within a few minutes. He was very kind and very professional at the same time. If I ever have another plumbing issue, I intend to call him right away. Thanks for great service!

Josue was very punctual and thorough in connecting some faucets, sinks and plumbing. When asked to return to complete the job he didn't hesitate and was back as soon as asked to return.

I was very happy with the service that I received from Jose. It was Friday before Labor Day weekend when I discovered that the hot water heater in my garage had leaked and there was standing water on the floor. There was carpeting on a third of the floor that was soaked through. He quoted me half the cost of what another company had quoted. I was able to buy the hot water heater from Home Depot on Friday night and Jose picked it up from there and brought it to my house Saturday morning. He not only replaced the old one but also helped me by removing the wet carpet from the garage. He really was like an angel. I really appreciated his work ethic, and was so grateful that he did not try to gouge me as the other company had tried to do. I recommend Super Rooter Plumbing to anyone looking for a good honest company.

The main trunk line of our home was blocked and our showers and toilets were not functional. Being a Sunday we panicked because due to health issues we needed a functioning shower and toilet. I called two reputable services in the area and one was overbooked and could not help, and other shared a time they would service us and after waiting 4 hours never showed up. At 6:00 PM we called Super Rooter and he arrived almost immediately and within an hour he fixed our issue. Jose was professional and very skilled. I am very particular about the home services we get and there's no doubt that Super Rooter will be our "go to" company should we need plumbing services.

Josue, owner of Super Rooter Plumbing, is extremely professional, knowledgeable, and knows how to get the job done. Arrived at our house on Saturday and within a short time had not only found the leak but gave us a solution to be able to turn our water on again. Thanks, Josue, for your expertise and saving us from further home damage.

Josue was very professional and even arrived early. I received several bids from multiple companies and Super Rooter was offered the most reasonable. Josue communicated all repairs being done and completed the job promptly. I will refer them to fam and friends and be sure to contact them for future projects. Thank you Cathedral City Home owner.

Josue came out to my house today due to a clogged bathroom sink. He was very friendly right off the bat. He found what was wrong with our sink after we tried fixing it many times. He explained everything that was wrong and explained what he was going to do before he did it. I would really recommend Josue from Super Rooter for all your plumbing needs! A great guy!

Jose was able to help me out in an emergency as our water pipe burst in our hall ceiling. He fixed the problem quickly as I was not even able to be in town when this happened! Piece of mind and he made sure I saw pictures and communication was fabulous. Thank You!
